

Contract Environmental Scientist

The Susquehanna River Basin Commission (SRBC), an interstate water resources management agency, seeks a contract Environmental Scientist for its Monitoring and Protection Program in the Harrisburg office. This is a paid, temporary position with benefits which is needed for a one year assignment beginning in December/January.

Primary duties of the position include supporting activities such as data compilation/processing/analyses, watershed implementation plan development, outreach and communication activities and field data collection.

Candidates with the following eligibility requirements will be considered:

- Bachelor's degree in physical or biological sciences or other related disciplines.
- Experience with Microsoft Office programs—specifically Excel and Access. GIS and watershed modeling familiarity a plus.
- Strong communication and organizational skills essential.
- Experience in aquatic science data collection such as fish/macroinvertebrate survey, water sampling, water quality indicator measurements, and on-water activities.
- Travel throughout the Susquehanna River Basin, including overnight assignments, is required.
- Position requires ability to hike and carry equipment across uneven terrain and some duties will occur despite foul weather conditions.
- Valid driver's license and clean driving record.

Send cover letter indicating interest and resume to employment@srbc.net by **December 3, 2017**. Inquiries can be made to Marcia Hutchinson, Susquehanna River Basin Commission, 4423 N. Front Street, Harrisburg, PA 17110. SRBC is an equal opportunity employer. Visit our website at www.srbc.net.
