

# **RIVERFRONT**COMMUNITIES: A Susquehanna Symposium

# Mark Your Calendar!

## June 8 - 10, 2005

**Hilton Harrisburg and Towers**  
**Harrisburg, PA**

This symposium will showcase the special link that exists between communities and their rivers throughout the Susquehanna basin in New York, Pennsylvania and Maryland.

Participants will learn about and discuss the unique set of challenges and opportunities facing riverfront communities in the areas of economic development, recreation, greenways and river corridor management (conservation, water resources and flooding). There also will be in-depth, hands-on training for people interested in learning how to design a dream rivertown.

The symposium will feature plenary sessions, breakout sessions, mobile workshops/field trips, keynote speakers, exhibit hall, receptions and many other opportunities to learn, network and exchange ideas.
