Policy No. 95-01

May 11, 1995

## **TIMING OF SRBC PROJECT APPROVALS VIS-À-VIS SIGNATORY APPROVALS**

The Commission shall seek agreements of understanding or similar arrangements with signatory agencies whereby the Commission and the agency agree to conduct their respective reviews in a cooperative, coordinated manner. Among other things, such agreements should provide for exchanges of information, communication, coordination, and mutual support.

If a signatory agency prepares a federal Environmental Impact Statement (EIS) on a project, the Commission shall defer a decision upon that project until completion of the final EIS and the record of decision.
