CERTIFICATE OF REGISTRATION FOR GRANDFATHERED WATER USE

Certificate No. GF-201812010

A. Facility Information

Project Sponsor: Norwich Pharmaceuticals, Inc.

Facility: Norwich Facility

Municipality, County, State: Town of North Norwich, Chenango County, New York

B. Source Information and Withdrawal Quantities

The withdrawals from the listed sources are considered to be grandfathered subject to the quantity limits and restrictions set forth below:

- Withdrawal of 0.106 million gallons per day (mgd), as a maximum consecutive 30-day average, from Well 1, for the manufacturing of pharmaceuticals.
- Withdrawal of 0.082 mgd, as a maximum consecutive 30-day average, from Well 2, for the manufacturing of pharmaceuticals.

C. Consumptive Use Quantity

Not Applicable

AUTHORIZATION

After review of the record, the Executive Director has determined the water uses for the Facility are considered to be grandfathered as described herein in accordance with the conditions set forth below and 18 CFR § 806.41-43. This Certificate is issued pursuant to the authority set forth in 18 CFR § 806.44 and is subject to the provisions of the Susquehanna River Basin Compact.

Dated: December 7, 2018

Andrew D. Dehoff, Executive Director

AUTHORIZATION CONDITIONS

1. The project sponsor is required to monitor and report its water withdrawals and seek Susquehanna River Basin Commission (Commission) approval prior to exceeding the above-referenced averages. Per 18 CFR § 806.43, the Facility shall keep daily records of the Facility's withdrawal from Wells 1 and 2, and shall report these data to the Commission quarterly, and as otherwise required, in the form and manner as prescribed by Commission staff. Quarterly monitoring reports shall be submitted online and are due within thirty (30) days after the close of the preceding quarter.
2. The project sponsor is required to adhere to the metering and monitoring procedures reviewed and approved by Commission staff. Daily records of withdrawals from Wells 1 and 2 shall be quantified using the existing flow meter. Any alternative measuring, monitoring, or accounting procedure shall be submitted for review and approval by Commission staff, in accordance with 18 CFR § 806.43. Modifications shall not be made until the project sponsor receives written approval from the Commission.
3. In accordance with 18 CFR § 806.30(b)(2), the Facility is required to report exceedances of the withdrawal quantity averages referenced above to the Commission within five (5) days of such exceedance, and report loss of measuring or recording capabilities required under 18 CFR § 806.30(a)(1) within five (5) days after any such loss.
4. Grandfathering is contingent upon continued operation of the Facility under current terms and conditions. The Facility shall submit appropriate applications to the Commission for review and approval prior to any changes to its operations, including:
 - a. Development of new withdrawal sources at the Facility;
 - b. Increases in withdrawals over the quantities referenced above; and
 - c. Changes in the nature of water use(s) at the Facility.
5. In accordance with 18 CFR § 806.6, if ownership of the Facility changes, the new project sponsor must submit an application for transfer of this authorization within ninety (90) days of the change in ownership. A transfer will be conditioned to require the submission of new applications, as appropriate, for review and approval. Upon undergoing a name change that does not affect ownership or control of the Facility, the project sponsor must request a reissuance of this determination within ninety (90) days of the change of name.
6. The Facility also holds an approval as Commission Docket No. 20050902-1, which is modified to authorize the grandfathering registration provisions herein.
7. This determination is approved for inclusion in the Commission's Comprehensive Plan for the Water Resources of the Susquehanna River Basin.
