Project Facility Description

Beech Resources LLC (Beech) is a natural gas exploration company requesting approval of a surface water withdrawal of 1.5 mgd from Lycoming Creek, located in Lycoming Township, Lycoming County, Pennsylvania for use in hydrocarbon development. The facility plans to begin operations in the Summer of 2021.

This facility will be used for hydrocarbon development and related incidental uses. The intent is to opportunistically fill an onsite aboveground structure when there is adequate flow in Lycoming Creek. Water is then transported via truck, buried lines, or overland quick lines for consumptive use at Beech Resources LLC approved natural gas well drilling pads.
