### Surface Water Withdrawal Application Susquehanna River Project Summary

**SRBC Pending No.:** 2022-014

This summary is only a portion of the application materials and is meant to provide general information about the proposed project.

#### Project Sponsor

<b>Company Name:</b>	SWN Production Company, LLC	<b>State:</b>	TX
<b>Address:</b>	10000 Energy Drive	<b>Zip Code:</b>	77389-4954
<b>City:</b>	Spring	<b>Title:</b>	Environmental & Regulatory Manager
<b>Contact Person:</b>	Carla Suszkowski	<b>Fax:</b>	
<b>Telephone:</b>	832-796-6372	<b>Email:</b>	Carla_Suszkowski@SWN.COM
<b>Mobile:</b>			

#### Requested Surface Water Withdrawal Quantity

<b>Projected Design Year:</b>	2022
<b>Existing Withdrawal Quantity:</b>	0(mgd)
<b>Requested Withdrawal Quantity:</b>	3(mgd)
<b>Maximum Instantaneous Withdrawal Rate:</b>	2083(gpm)
<b>Estimated Daily Operation:</b>	24(hours/day)

#### Requested Consumptive Use Quantity - No

<b>Existing Consumptive Use:</b>	0(mgd)
<b>Requested Consumptive Use:</b>	0(gpm)
<b>Pre-Compact/Grandfathered CU:</b>	0

## **Facility Location**

**Street Address:** 28331 State Route 92

**State:** PA

**County:** Susquehanna

**Municipality:** Oakland Township

**Zip Code:** 18847

## **Surface Water Withdrawal Source Information**

**Source Name:** Susquehanna River

**Source Type:** stream

**Subbasin:** Upper Susquehanna

Surface Water Withdrawal Application  
Susquehanna River (Colwell)

### **ATTACHMENT 3 – PROJECT FACILITY INFORMATION AND DESCRIPTION**

Southwestern Energy Production Company, LLC (SWN) is a natural gas exploration company requesting approval of a surface water withdrawal of 3.000 million gallons per day (mgd) from Susquehanna River, located in Oakland Township, Susquehanna County, Pennsylvania for use in hydrocarbon development. Water is proposed to be withdrawn through two submerged intake screens that will be placed in riverbed during pumping. A trailer mount pump will be used at this location to hook up to piping. The facility plans to begin operations in the Summer of 2022.

This facility will be used for hydrocarbon development and related incidental uses. The intent is to opportunistically provide pumping ability to a trailer mount pump and to local gas pad for drilling and extraction purposes from flow in Susquehanna River. Water is then transported via truck or overland quick line for consumptive use at SWN's approved natural gas well drilling pads.
