## **2.1 Project Facility Description**

Wynding Brook Golf Club is an 18 hole golf course situated on 124 acres of land. We currently have one pond (1/2 acre in size holding 1.6 million gallons of water) located at the front entrance of our property along Rt. 405. This pond is utilized as a storage pond for irrigation purposes. Water is pumped from the West Branch Susquehanna Rive into our storage pond and then held there until needed. On an as needed bases we will pump water from our storage pond unto our golf course to irrigate our greens, tee boxes and fairways.
